Why Students Attend

The fifth annual Heartland Diversity Legal Job Fair was held August 7-8, 2009 in Kansas City, Missouri. It was a huge success with approximately 100 students attending from over 40 law schools throughout the United States. With 25 employers on hand, students averaged about 4 interviews.

Student Feedback

The HDLJF was one of the best job fairs that I have attended. It was very well organized, and most importantly, the employers were committed to hiring students from the job fair. I also felt like the job fair was a sincere effort to diversify the legal practice in Kansas City.

I never would have discovered Kansas City without it.

Very nice event; I would certainly recommend it to others. The entire experience showed me that Kansas City has a great legal community anyone would be proud to be part of.

I was able to see the commitment of the Kansas City area and its firms to diversity. I feel more comfortable practicing law here, knowing that diversity is valued and encouraged.

KCMBA DIVERSITY ACTION PLAN

In 2003, the Managing Partners Committee of the Kansas City Metropolitan Bar Association developed and implemented an action plan to promote diversity in the Kansas City legal community.

As a result of the Action Plan, a number of efforts were launched; including the Heartland Diversity Legal Job Fair (HDLJF) hiring of a KCMBA diversity coordinator, numerous panel presentations to the Bar, clerkship programs and general promotion of increased awareness of the value and importance of diversity in our profession.

These efforts have yielded significant progress. The participating firms reported the following gains from 2004 to 2008:

- the number of attorneys of color increased from 71 to 103
- the number of attorneys of color at the partnership level has increased from 16 to 26.
- the number of African American attorneys has nearly doubled, increasing from 29 to 52.
- the number of women attorneys has increased from 448 to 521.
- the number of women attorneys at the partnership level has increased from 116 to 142.

Still, more work remains to be done, and we wish to recommit ourselves and broaden the definition of diversity to be more inclusive. Therefore, in addition, and also consistent with the goals and objectives of the original Action Plan, the member firms acknowledge that efforts to promote diversity must reflect a definition of diversity that is broader than race or ethnicity. The member firms agree that “diversity in its broadest sense” which the member firms commit to promote includes, without limitation, race, color, religion, gender, gender identity, sexual orientation, national origin, disability, marital status, age and veteran status.
